Power Management Solutions

800-573-4949

2560 48<sup>th</sup> Street N

Wisconsin Rapids, WI.

### **Local Company Plans Growth under New Ownership New Owner Sees Expansion of Wisconsin Rapids location**

*Wisconsin Rapids, Wisconsin-* Power Management Solutions, Inc., ( [www.pmspower.com](http://www.pmspower.com) ) a company with long Wisconsin Rapids roots was recently acquired by West Allis, Wisconsin businessman, Daniel Weitzer. The company was lead by Wisconsin Rapids native, William McCarthy since 1999.

Mr. Weitzer has a long track record with companies in the electrical and construction industry. During his career he has founded and served as President of 'LectriChem, Inc. sales company and founded the multi-state [Weitzer Sales Limited](#). Daniel has already injected a number of new ideas into the Power Management Solutions' business plan. However he is keen on keeping the long standing business premise; hard-working, Midwest values and quality customer service.

Recently new owner Daniel Weitzer said, "We are committed to the Wisconsin Rapids area and will continue operating out of 2560 48<sup>th</sup> Street N, [Wisconsin Rapids](#), WI. Our associates are from the area and have years of knowledge in the field of power. Their ability to assess problems, work with customers, design the correct system and ultimately provide long-term service contracts for that equipment ensures our customers the maximum value. It is our goal to continue providing this excellent level of customer support, before, during and long after the sale."

#### **ABOUT POWER MANAGEMENT SOLUTIONS (PMS, INC)**

Power Management Solutions, Inc. provides sales, service and expertise on back-up electrical and electronic power systems across the Midwest. The applications range from home computers and entertainment centers to banks, data centers and medical applications. They offer a local source for emergency lighting power supplies, medical power regulation equipment, generators, [Uninterruptible Power Supplies](#) (UPS) systems for computer rooms and individual computers, batteries and accessories.

Power Management Solutions' goal is to provide the customer with the 'best' and most cost-effective solution to prevent loss of data or damage to sensitive electronic equipment due to power quality issues. PMS, Inc. works with the best manufacturers of UPS, power quality products, generator manufacturers and battery suppliers. Whether the power has gone off completely, a blackout, or has spiked or sagged, our expertise in providing a power quality solution will work to keep the power clean and steady.

PMS, Inc. also works with contractors and installers to supply complete, turn-key computer rooms. From raised floor systems to air-conditioning to generators and UPS, PMS, Inc. can do the job.

If you have sensitive electronic equipment you want to protect from unregulated power, Power Management Solutions, Inc. can be there to help. We are your "Total Power Protection Resource".

We invite you to visit us at [www.pmspower.com](http://www.pmspower.com) and browse our site. We offer extensive information on the products we sell and service as well as a shopping cart for batteries small UPS, wiring accessories and more. Or call us at 715-423-2533 or 800-573-4949.
